PIRATE

Divide players into two teams.

Each person takes a turn drawing a card out of the pile and acting out the clue for their own team to guess. Time the actor for 1 minute. At the end of the minute, if they haven't guessed, the other team has a chance to guess. Whichever teams gets it right, get 1 point.

Take turns going back and forth between teams.

Continue playing until all cards have been used. The winning teams is the one with the most points.
